

Paintworks Specification GS 345.23

System GranoShield® Matt Low Profile

Substrate Exterior - New and uncoated extruded and expanded polystyrene sheets and mouldings

Category PremiumTexture – Water Based

Product Features

GranoShield® Matt is a pure acrylic matt finish, high performance coating.

Surface Preparation

Substrate must be free from dirt, dust, oil, grease, mould or any other contaminants that may affect adhesion. Ensure the sheets are securely fixed in accordance with manufacturer's current specifications. Examine sheets to ensure that there is no possibility of future sheet movement. The success of any sheet system is very much dependant on the correct construction of the framing, the fixing of the sheeting and the application of the rendering materials themselves. WattyI recommends, that it is the responsibility of the applicator to ensure that the substrate is of an acceptable standard prior to application of any Granosite coating system. The rendering and jointing system requirements will vary depending on the type of polystyrene being coated. Refer to WattyI Sales department for appropriate specification. See detailed diagram on page 2.

Application Details	Data Sheet	Coverage M ² /L	Film Thickness (microns)		Dry Times	
			Wet	Dry	Touch	Recoat
First Coat: GranoRender PM® <i>(equipment: trowel)</i> <ol style="list-style-type: none"> Apply 4mm of GranoRender PM which has been mixed with 4 litres of clean fresh water. Whilst the render is wet, embed sheets of 960mm wide GranoMesh into the render surface overlapping the sheet ends by 100mm. After the GranoRender PM has cured (typically 5 days minimum), it can be topcoated.. 	G1.22	Approx 3m ² /bag		4000	4 hours	
Second Coat: GranoSponge® Fine Acrylic <i>(equipment: trowel)</i>	G1.21	Approx 3Kg/M2	2000	1300	4 hours	24 hours
Third Coat: GranoShield® Matt <i>(equipment: brush, roller or spray)</i>	G2.27	0.25 L/M2	250	117	4 hours	6 hours
Fourth Coat: GranoShield® Matt <i>(equipment: brush, roller or spray)</i>	G2.27	0.25 L/M2	250	117	4 hours	6 hours

Recommended Uses

For exterior or interior use.
This texture system is suitable/approved for use on new and uncoated extruded and expanded polystyrene sheets and mouldings.

Additional Notes

Surface preparation is the responsibility of the Builder, Renovator or Main Contractor, and the Applicator. To achieve the indicated performance, it must be carried out to WattyI's recommendations.
It is recommended that application be carried out by a skilled applicator who is totally conversant with the WattyI Granosite products and systems, to validate full material warranty conditions.
Refer to the detail diagrams on page 2

Caution

Provide adequate ventilation during use.
Application **should not** be carried out if the air temperature or the substrate temperature is below 10°C or above 35°C. The temperature must not fall below 10°C during the drying process.
