# Classic Romantic

Add drama to a classic style room with a deep, black feature wall and a detailed fireplace. Offset with an elegant, soft grey and crisp white trim, this colour scheme suits older style rooms with architectural features.

Use Colorbond® Nightsky sparingly as your feature colour, with the soft tones of Sourdough on your remaining walls. A fresh white on your trims and ceilings will complete the look.

# Refined Classic

Black and white combinations don't have to be stark. A blackened navy wall adds depth to this modern living area. The light grey main walls provide a backdrop to black and white artwork pieces. Use a graphic black and white rug to tie the scheme together.

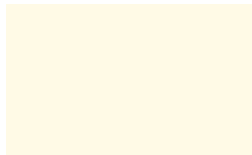

Paint your feature wall in Midnight Seas and your remaining walls in the soft grey, Gracieux. Use Chalkdust on your trim areas.

## Urban Style

A simple makeover, with a deep charcoal wall behind the fireplace in this bedroom and a fresh green based white on the main walls gives this bedroom an urban edge. Timber furniture adds texture and white bed linen provides contrast.

Colorbond® Ironstone makes the perfect feature colour, but use it sparingly. Lighten up your room with Athens on the remaining walls, with trims in Watty White.

## Sleek Modern

A moody, deep grey coloured wall creates a sense of glamour and drama in this inner city apartment. This opulent bed linen provides texture to complement the walls and is offset by a warm white on the remaining wall space.

Grey Ember is the perfect colour to create an elegant mood in your bedroom. Use Powder White on your other walls and Freesia on your trims.
