# Warm

Bright reds and oranges, balanced with rich yellows and pinks, are the perfect antidote to dull, lifeless rooms. Use them in colour blocks with neutrals and graphic prints to create an energetic and vibrant space. These colours are ideal for rooms that don't receive much natural light, and need an injection of energy and warmth.

Use these shades as a feature wall or feature area mixed with crisp whites such as Magic White, or neutrals such as Alta Sierra.

# Cool

Electric blues, bright turquoise and fresh greens and purples are the perfect shades to add a splash of colour in your home.

Mix them with fresh whites such as Chalkdust or Freesia and graphic black and white, patterned prints.

Cool Colours are perfect for rooms that receive an abundance of natural light.

Pick out a feature wall in your favourite colour and then use some of the other colours in this palette in your accessories such as cushions or vases.
